

App-Ready SmartTag™

Coordinate On & Off Site Activities ● Report Status ● Track Inventory & Time ● Retrieve Log History

Construction Sites ● Production Lines ● Healthcare Facilities ● Warehouses ● Offices

App-Ready SmartTag is a work-area/project-specific SMS Web Portal that can be launched from your mobile or PC. The app's URL can be published at a physical location or via email. Onsite and offsite team members can access the content, view log history, or submit messages/logs regarding job progress, timekeeping, inventory consumption, service reports, and more.

There is no account signup and no app download. To test run this free web app, scan the QR code below or go to myTrackBuddy.com/instant_launch/. A separate link will be sent to your email address where you can access the edit page. Posting methods will be provided upon email submission.
